## PROFESSIONAL EXPERIENCE

### CONSULTINGNOVA CIA. LTDA. – QUITO, EC April 2024 – October 2024

#### Artificial Intelligence Intern

- Conducted research and development of AI models.
- Focused on software development and automation using AI technologies.
- Developed web applications, including the company's intranet system.
- Worked on key projects, such as People Connect, improving internal and client-facing processes.

Provided training and technical support to teams on AI implementations and tools.

*Microsoft Licensing and Solutions Provider (LSP) and Cloud Solutions Provider with a focus in small and medium-sized customers. Located in Quito and Guayaquil, Inova Solutions offers a variety of Microsoft-related products and services.*

### Smart Lab – National Polytechnic School (EPN) – Quito, EC Neural Networks Project July 2023 – November 2023

- Led an artificial intelligence project focused on the development and implementation of neural networks.
- Conducted initial research to define project objectives and methodologies.
- Designed the architecture of the neural network, optimizing parameters to enhance performance.
- Implemented the model using advanced tools and technologies, ensuring its functionality and effectiveness.
- Conducted extensive testing to validate the model, making adjustments based on the results obtained.
- Coordinated and collaborated with a multidisciplinary team, facilitating the exchange of ideas and knowledge.
- Presented the project's results and findings to the academic community, highlighting its potential impact on various applications.
- Documented the development process and created manuals for future implementation and use.

*The Smart Lab is an artificial intelligence laboratory at the National Polytechnic School, dedicated to the research and development of innovative solutions in the field of AI. The laboratory focuses on creating and applying advanced technologies, such as neural networks, machine learning, and data processing.*

### National Polytechnic School – Quito, EC LudoLab Laboratory – Digital Inclusion Project April 2023 – September 2023

- Trained senior citizens in the use of computers, promoting digital inclusion.
- Planned and designed customized lessons tailored to participants' needs.
- Organized a variety of interactive educational activities to reinforce learning.

*The LudoLab Laboratory, part of EPN, specializes in training individuals through digital inclusion and educational projects. Our goal is to empower various community groups, especially senior citizens, by providing them with tools and knowledge that enable them to integrate into the digital world. Through our initiatives, we aim to create a positive impact on society by promoting learning and access to technology.*
